Re: Vacuum Services

Dear Nigel,

We now have completed the Sandbridge Vacuum Sewer Project. This is our largest Project to date. This was a 5.2 million dollar project and served 317 homes.

Iseki was a large factor in the success of this Project supplying the Vacuum Valves as well as the Fiberglass Pits. Your Firm was involved with the job from the beginning educating our field personnel in installation procedures as well as monitoring the installation and dealing with problems that arose during construction.

We found the Fiberglass Valve Pits were well designed and easy to install. We hope these Pits will set the standard for this area and will be used throughout Hampton Roads.

I like to commend you and your Company for your performance on this project and would highly recommend your Company and its products to others.

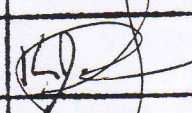

I look forward to working with you in the future.

Sincerely,

Kevcor Contracting Corp.

Gregory G. Span
